Q: Making my name stick on the Unity Launcher (aka "Startup Applications")

Lets say I would like to have my name displayed on the "Startup Applications"

launcher in Unity. This can be done with the Startup applications app in the control center. However, this only works for Gnome. Is there a way to do it in Unity? Maybe there are default shortcuts in Unity to do this?

A: You are looking for the command `gnome-session-properties` and then you can add whatever you want to the Startup Applications options. If you don't know how to do that, refer to this website [You can also set](#)

other startup options which are not usually included in the command line. They are listed under "Custom:". /* *
